LMS SUPPORTING SELF-STUDY
Reasons For Success

Industry surveys reveal that candidates, who engage in self-study, perform better than those who confine themselves merely to the classroom learning. Multisoft promotes self-study through its robust Learning Management System (LMS). In addition to instructor-led classes, all candidates receive 24/7 access to the LMS that is their personal study area, accessible anywhere, anytime. This is a boon to students who can:

- Attempt simulated mock tests
- View detailed scorecards
- Read through course material
- Take module-wise practice tests
- Assess and improve performance
- Access reference material

Multisoft’s LMS is coupled with an intelligent analytical tool that reveals the complete learning graph of the candidates. Based on performance in various tests and assessments, candidates receive comprehensive scorecards. Participants, as well as the instructors get to know minute-level details of the performance based on responses made, time taken, guesses etc.
