multisoft

# AI & Machine Learning

# about me

- Senior Software Engineer(AI) at Adobe Systems

- Software Dev → Big Data → ML/AI

# Why AI and ML

- What is Artificial Intelligence ?

- Why has it become so popular ?

- What is

- What about the jobs in market ?

# Course Design

- Hands on

- Industry oriented

- Rigorous

- Interview Prep – Job ready ☺

Training

New text file → **Text classifier** → class

# Course Outline (consolidated AI track)

- AI Basics (Theory)

- Machine Learning foundation

- Deep Learning foundation

- Neural networks (along with Math's refresher)

- Convolutional Neural Networks

- Recurrent Neural Networks

- Generative Adversarial Networks (advanced)

multisoft

# Course Outline (ML track)

- ML Basics (Theory)
- Regression
- Classification
- Clustering
- Association Rule Learning
- Reinforcement Learning
- Deep Learning(Introduction)
- ML with Spark

# Thank you
