PMI-PMP CERTIFICATION

(You Initiate , We Close)

HANDLING CHALLENGING PROJECT SITUATION

Lets start with a project definition

- It's a temporary endeavor undertaken to create a unique product, service or result.
- A **project** is temporary in that it has a **defined** beginning and end in time, and therefore **defined** scope and resources.

Common Project Challenges

Scope Creep and gold plating.

Unclear requirements definition & Project manager or team member trying to offer more than what is agreed to please the customer .

✓ KEEP THE CUSTOMER ENGAGED.

Alignment with strategic objectives.

Though we delivered the project under scope, time & cost but it adds no value to the business.

✓ IS IT STILL A VALID BUSINESS CASE

Change Management , Resistance to change

Effective Change management process by having right mindset. In today's environment where customer expectation & demands are at peak, Customer collaboration is the need.

Architectural issues :

Welcome change even if it arrives late. There can be two primary reasons a) gaps in requirement gathering and understanding b) change in architecture due to change in business requirements.

- Integration issues

Once the project is in build phase or implementation phase, product or integration defects are seen. Strong quality control mechanisms like audits can help the product in meeting the customers quality expectations.

How To avoid the potential issue

- POTENTIAL ISSUES = RISK
- Risk identification as early as possible in the project.
 - Operational Management
 - Steering group members.
 - Project & Program teams.

RISK are POSITIVE & NEGATIVE. Positive risk result in opportunity & negative risk result in threats.

Project Title: _____

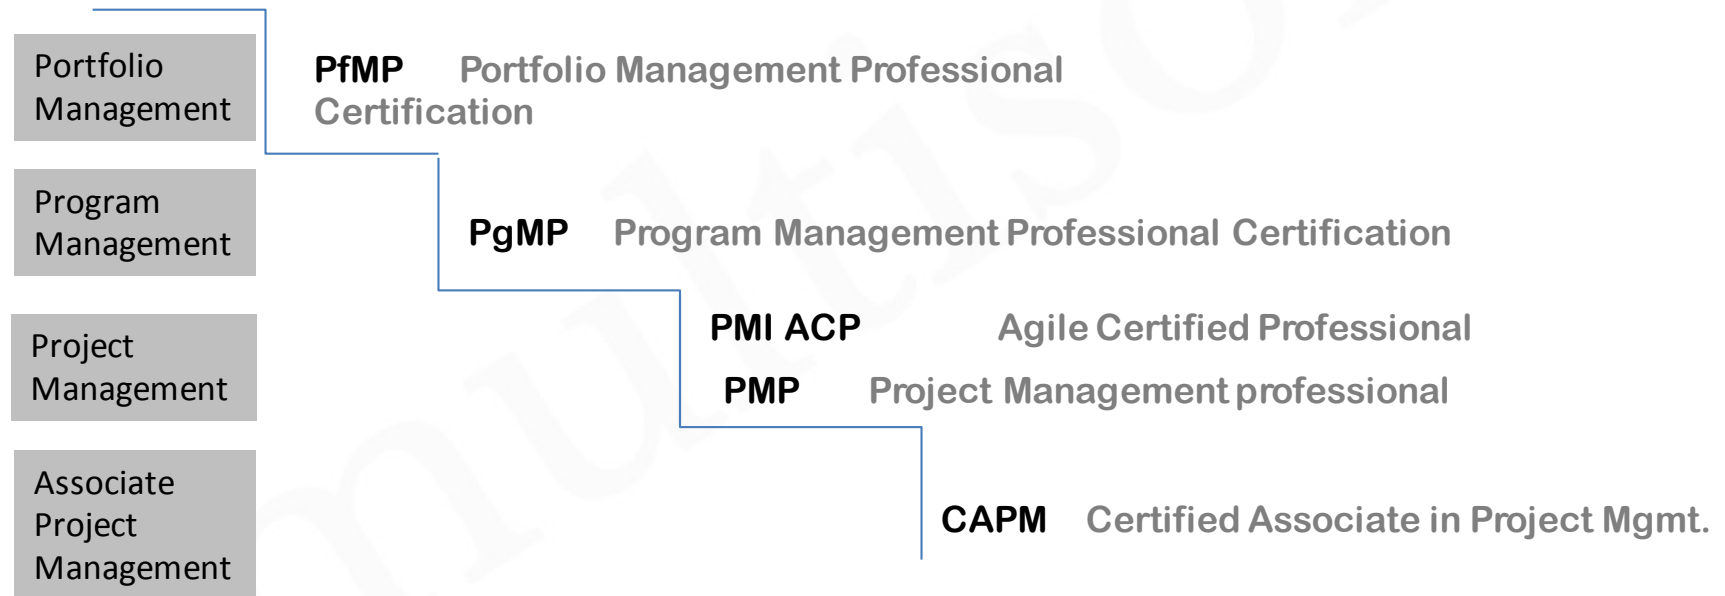

Date Prepared: _____

[illegible]

Influence & Interest matrix

| Setting Stakeholder Communication Strategy | | | |
|--|------|-----------------------|--------------------------------------|
| | | Level of Interest | |
| | | Low | High |
| Level of Influence | Low | Apply minimal effort | Keep informed |
| | High | Active communications | Active communications and engagement |
